ACCUCHARGER Wall Mount

Practical accessories for the Accucharger

Robust and accurately fitting mounting device for a secure hold of the charger. The open design allows an optimal view to the display of the charger.

Space-saving layout with cuts for mains and charging cables. Simple mounting including mounting material.

Ideal for workshops, garages and service stations.

The charger is always handy and ready for use!

PERFORMANCE

Handling: Charger can be used in the wall holder or directly at the vehicle

Design: Robust, high-quality plastic finish

Mounting: Simply screw the bracket onto the wall / workshop lifting platform

Contents: wall mount, mounting material

APPLICATION

Home / Workshop

Fits for Banner Accucharger 12V 6A, 12V 10A and 24V 10A
