

Dear factory visitors!

At Banner, safety is very important to us, which is why we require our employees and partner companies to implement high-quality occupational health and safety management and attach great importance to the implementation of employee protection in all activities carried out on the factory premises. We therefore require all our operational partners to carry out electronic health and safety training as part of the legal requirements.

Login for plant visitors

Option 1: open the following link

<https://bannerbatterien.ts-learning.com/login/visitor?lang=de>

Option 2: scan the following QR code

Attention: Instructions on how to scan a QR code can be found at the end of this document if required!!!

Step 1 - 3:

1. enter your telephone number in the 'Mobile phone number' field. (green arrow)
2. confirm the 'Privacy policy and terms of use'. (blue arrow)
3. click on the blue operating button 'NEXT'

Attention: Please log in again every day when entering the premises by entering your telephone number and follow the instructions! The system recognizes that you have already

The system recognizes that you were already present and have valid training, so you do not have to complete the training again!

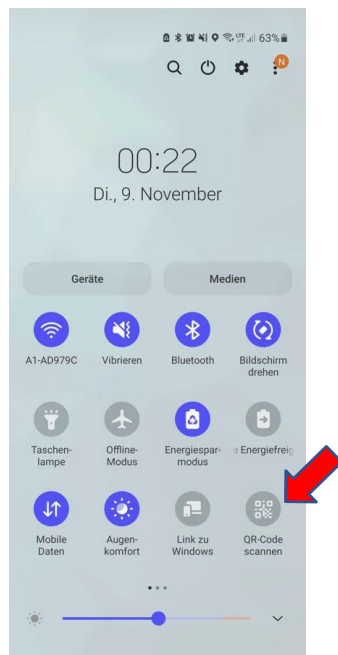

However, in the event of an emergency, we may have an attendance list and the necessary contact details to ensure your safety.

## Example Android

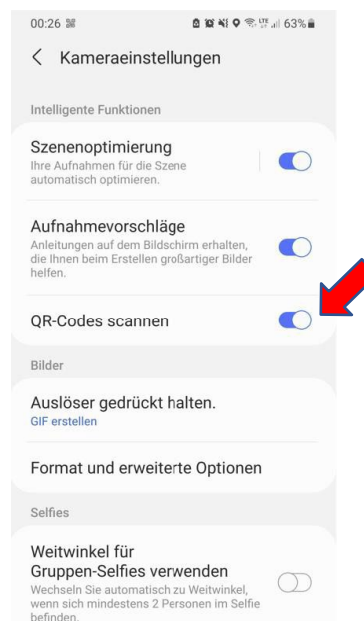

Scan QR code and install quick start mobile phone Samsung Galaxy S20 with Android operating system (Google Chrome recommended as browser)

### Step 1

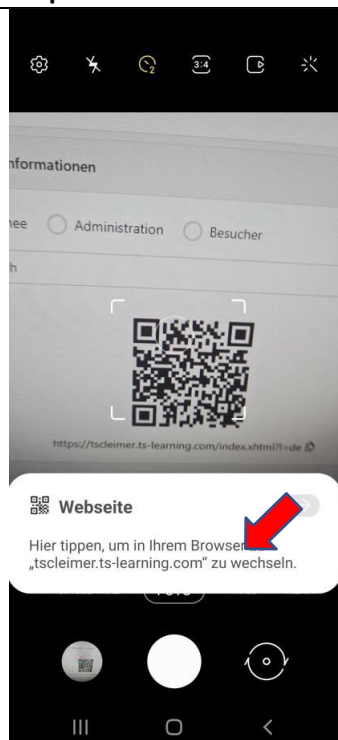

**Option 1:** Drag the top edge of the screen downwards and select the 'Scan QR code' function and then open the link that appears.

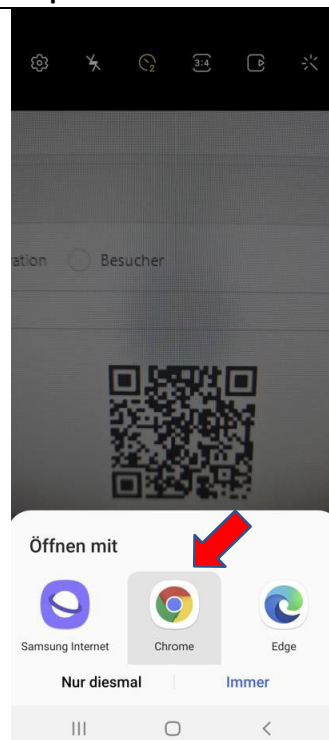

**Option 2:** Open the camera app and set the 'Scan QR code' function. This selection means that QR codes are always recognised automatically when the camera app is opened.

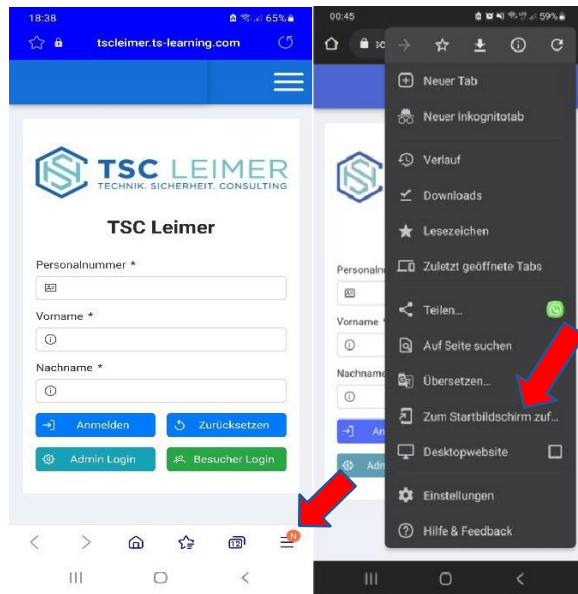

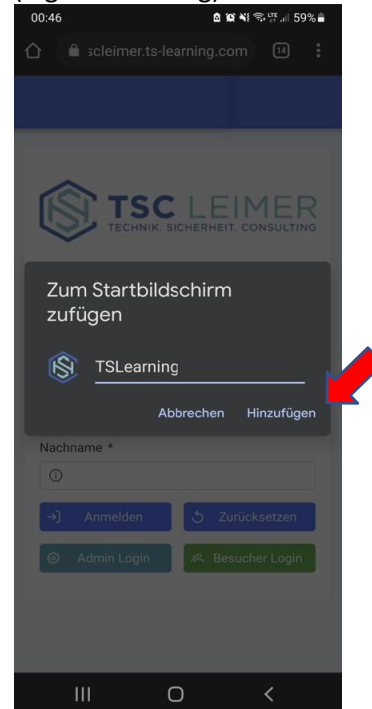

### Step 2

### Step 3

**Step 4****Add to home screen****Step 5****Assign a name for the quick start (e.g. TS-Learning) and select 'Add'****Step 6****Add quick start to home screen****Step 7**

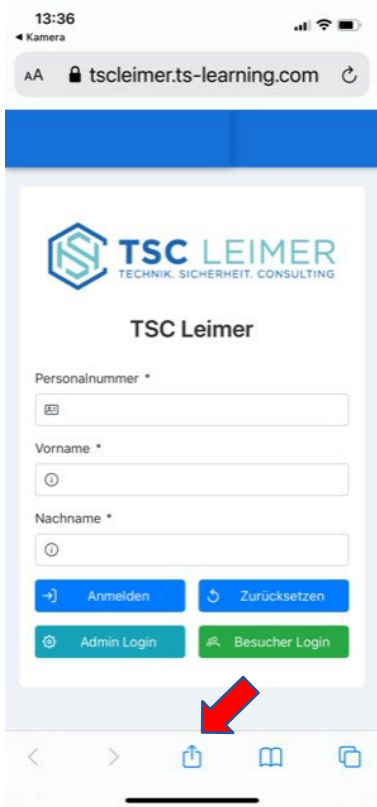

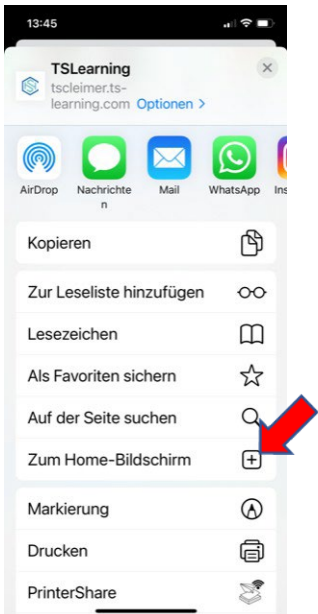

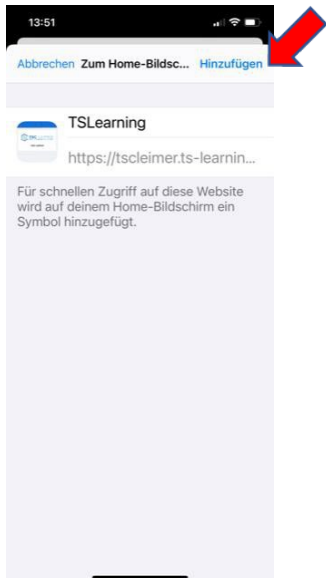

Search for the quick start app on the start screen (usually scroll to the last page on the right), reposition the quick start app if necessary and in future access via App for training courses

## Example iPhone

Scan QR code Apple iPhone with IOS operating system. If you have problems with the Apple operating system, we recommend using Google Chrome.

<p><b>Step 1</b></p> <ol style="list-style-type: none"> <li>1. Open the camera app from the home screen, control centre or lock screen.</li> <li>2. Select the rear camera. Hold the device so that the QR code is displayed in the viewfinder in the camera app. The device recognises the QR code and displays a message at the top.</li> <li>3. Tap on this message to open the link associated with the QR code</li> </ol> 	<p><b>Step 2</b></p> <p>Add to the home screen or save as a favourite.</p> 
<p><b>Step 3</b></p> <p>Scroll down</p> 	<p><b>Step 4</b></p> <p>Change the name if necessary and then click on 'Add'</p> 

**Step 5**

Search for the quick start app on the start screen (usually scroll to the last page on the right), reposition the quick start app if necessary and in future access via App for training courses
